THE NEW ZEALAND JOURNAL OF AGRICULTURE.

VOLUME XVIII.

(January–June, 1919.)

GENERAL INDEX.

A.

Abscess on horse, 116.
Accounts, interest and depreciation charges in farm, 206.
Agricultural education in the United States of America, 245.
"Agricultural Index," the, 381.
Agricultural production in New Zealand, means for increasing, 140.
Agricultural shows, 64, 128, 192, 244, 318.
Agricultural text-book, a New Zealand, 381.
Agriculture and science, 155.
Ailanthus tree for wood-pulp, the, 223.
American fruit industry, investigation of, 171.
"Anconia sheep-dip" fraud, 154, 225.
Answers to correspondents, 55, 114, 186, 241, 310, 377.
Apiary, the (monthly notes), 50, 107, 177, 232, 304, 370.
Apple-grading machines, 364.
Apples, markets for New Zealand, in Canada and United States, 254.
Apples, vinegar-making from, 218.
Apple-trees, canker of, 378.
Apple-tree, pruning of Irish Peach, 56.
Areas under principal crops, 58.
Australia and South Africa, shipping between, 124.

B.

Beekeepers' field-day at Ruakura, 156.
Bees and flower-fertilization, 203.
Blackberry, dealing with, 56.
Blackleg: Control of amended areas, 125.
Black-spot and red mite, control of, 344.
Black-spot of pear, control of, at Te Kauwhata, 221.
Blights and pests: The home orchard, 40.
Blindness in sheep, 115.
Bots and worms in horses, 377.
Breeding-ewes, feed for, 241.
Breeding-sows, winter forage crops for, 244.
British Columbia as a market for New Zealand fruit, 384.
British Columbia, interim report on fruit industry of, 361.
Brittle feet, mare with, 380.
Broad-bean rust, 379.
Broken-winded horse, 379.
Brown-rot of stone-fruits, control of, 272.
Bush sickness, curative treatment of, by iron salts, 193.
Butter-prices equalization fund, 256.

C.

Calf-management, a case of faulty, 296.
Calf, severing navel-cord of, 118.
Calf with laboured breathing, 55.
Calf-skins and hides, permits for export of, 191, 255.
Calving-age for heifers, 114.
Canker of apple-trees, 378.
Canterbury, experimental orchard for, 298.
Canterbury Seed-growers' Association, 318.
Cape gooseberry, the, 220.
Casein, market for rennet, 376.
Cattle and parasitic gastritis, 243.

Cattle and rape, 188.
Cattle from Tasmania, importation of, 253.
Cattle, scouring trouble in, 118.
Cattle-feed, "tree-lucerne" as, 379.
Cereals, the world supply of, 248.
Cereal-yields at Ruakura, 364.
Certificate-of-record system in 1918, 65.
Certificate-of-record testing, 30.
Compatibility chart of insecticides and fungicides revised, 39.
Chestnuts, raising, 242.
Chestnut-trees, 114.
Clay soil, treatment for northern, 242.
Cocksfoot: Its establishment and maintenance in pasture, 257.
Concrete finishing for a draining-pen, 224.
Concrete for roads and pathways, 92.
Concrete for small sheep-dipping plant, 9, 212.
Concrete, waterproofing, 205.
Contagious stomatitis, ewes with, 242.
Control of black-spot of pear at Te Kauwhata, 221.
Control of brown-rot of stone-fruits: The past season's experiments, 272.
Arataki Horticultural Station, 272.
Hawke's Bay commercial orchards, 275.
Henderson tests, 279.
Control of field-daisy, 115.
Control of foxglove, 28.
Control of pennyroyal, 57.
Control of piripiri, 55.
Control of red mite and black-spot on apple-trees, 344.
Control of the wood-borer, 198.
Corn-sacks, maximum price of, 124.
Cow, treatment for red-water in, 310.
Cow with swollen hock, 380.
Cows chewing wood and bones, 116.
Cows, testing of purebred dairy: Certificate-of-record system in 1918, 65.
Crops, areas under principal, 58.
Crops, forage, 169.
Crops, rotation of, 83.
Cucumbers, diseased, 380.
Cuttings, methods in regard to propagation of plant, 93.

D.

Dairy factories, &c., registrations of, 376.
Daisy, control of field, 115.
Diseases and pests of orchard: Directions for control, 182.
Diseases in plantations of exotic trees, 63.
Dogs, quarantine of, in New Zealand, 102.
Drainage, 141.
Draining-pen, concrete finishing for a, 224.
Dunes in Holland, treatment of the, 150.
Dunes, reclamation of sand, 148.

E.

Economic investigation of the montane tussock-grassland of New Zealand, an, 1, 321.
Economizing phosphates: The use of lime, 79.
Eczema in dog, treatment for, 312.
Electrical fixation of aerial nitrogen, 200.
Elephant-grass, 82, 197, 360.
Ensilage in Southland: Demonstration at Gore, 284.
Entomology, aspects of humanistic, 226.
Eucalyptus Macarthuri, good results at Rotorua with, 27.
Ewes, feed for breeding, 241.
Ewes with contagious stomatitis, 242.
Expeditionary Force scholarships, 347.
Export and supply of hides, 255.

F.

Farm accounts, interest and depreciation charges in, 206.
Farm-manure experiment with onions, 347.
Farming, limiting factors in, 332.
Feather-pulling among fowls, 56.
Fern land, pigs on, 378.
Fertilization, bees and flower, 203.
Fertilizer-dilution substance, notice to farmers regarding, 197.
Fertilizers, importation of: Annual returns, 358.
Fertilizers, importation of: Quarterly returns, 126, 319.
Fertilizing an orchard, 243.
Flies affecting live-stock, some noteworthy, 10.
Flower-fertilization, bees and, 203.
Forage crops, 169.
Forage crops for breeding-sows, 244.
Forestry policy for New Zealand, a, 313.
Fowls, feather-pulling among, 56.
Fowl-manure, 186.
Fowl-wheat and seed-wheat prices, 191.
Foxglove and its control, 28.
French Mission and New Zealand agriculture, the, 101.
Frozen meat, importation of, into Norway, 382.
Fruit, British Columbia as a market for New Zealand, 384.
Fruit, premature falling of, 56.
Fruit industry in America, investigation of, 171.

Fruit industry of British Columbia: Interim report, 361.
Fruit-trees, root-fungus of, 116.
Fruit-trees, silver-leaf disease in, 88.
Fungicides and insecticides, compatibility chart of, 39.

G.

Garden, the (monthly notes), 52, 110, 179, 235, 306, 373.
Gardens, areas in orchards, plantations, and, 128.
Gore experimental area: Demonstration of ensilage-making, 284.
Government prices of wheat, 256.
Green manure, mustard for, 117.
Ground shelter, providing, 241.
Gum land: Experimental area at Puwera, 161.
Gum land, grassing of, 187.

H.

Hedge, treatment for pittosporum, 186.
Hedges for coastal situation, 187.
Heifer's milk, blood in, 118.
Heifers, calving-age for, 114.
Hemp-prices, 64.
Hides and calf-skins, permits for export of, 191.
Hides, supply and export of, 255.
High-country runs, sheep and the, 90.
High schools camp at Ruakura, 215.
Horse, abscess on, 116.
Horse, broken-winded, 379.
Horse, treatment for side-bone in, 242.
Horse with irritation of fetlocks, 186.
Horses, worms and bots in, 377.
Hydro-electric development for New Zealand, 119.

I.

Importation of fertilizers: Quarterly returns, 126, 319.
Importation of fertilizers: Annual returns, 358.
Importation of frozen meat into Norway, 382.
Income-tax, rural: Specimen return for dairy-farmers, 288.
Injurious insects in New Zealand, 101.
Insecticides and fungicides, compatibility chart of, 39.
Insect pests in orchard nursery stock, 216
Iron salts, curative treatment of bush sickness by, 193.

K.

King-country development: Tokanui Mental Hospital Estate, 34.

L.

Land in occupation in New Zealand, 59.
Land occupied in New Zealand, tenure of, 60.
Lawn infested with prunella, 312.
Lawn, seed-mixture for, 188.
Lemon-tree leaves, curling of, 243.
Licensing of meat-export, 61.
Lime-sulphur for spraying potatoes, 55.
Lime-sulphur solution, reference table for standardizing, 185.
Liming, 141.
Limiting factors in farming, 232.
Live-stock in New Zealand, 127.
Live-stock, some note orthy flies affecting, 10.
Loganberries, propagation of, 114.
Lucerne experience—
In Lower Clutha Valley, 213.
At Somes Island, 214.
On pumice-deposit country, 215.
Lucerne on flood-plain land, 378.
Lucerne hay: Feeding to pigs, 312.

M.

Mammitis, suspected in cows, 187.
Mare with brittle feet, 380.
Market for rennet casein, 376.
Markets for New Zealand apples in Canada and United States of America, 254.
Maximum price of corn-sacks, 124.
Measures and weights, 208.
Meat-export, licensing of, 61.
Meat-freezing works in New Zealand, 320.
Milk-products, investigation of, 98, 360.
Montane tussock-grassland of New Zealand, economic investigation of the, 1, 321.
Moumahaki Ayrshires, sale of, 207.
Moumahaki, cereal yields at, 223.
Mud-fever in horse, 118.
Mustard for green manure, 117.

N.

Navel-cord of calf, severing, 118.
New Zealand agricultural text-book, a, 381.
New Zealand apples, markets for, in United States of America and Canada, 254.
Nitrogen, electrical fixation of aerial, 200.
Norway, importation of frozen meat into, 382.
Nursery stock, insect pests in orchard, 216.

O.

Oat and wheat crops, estimated yields of, 128.
Oats and wheat, average yield of, 247.
Oats, exportation of, 256.
Onions, farm-manure experiment with, 347.
Onion-seed, saving, 364.
Opossums, 357.
Orchards, gardens, plantations, areas in, 128.
Orchard pests and diseases, directions for control of, 182.
Orchard, shelter-belts for the, 165.
Orchard, the home, 40.
Orchard, the (monthly notes), 45, 103, 172, 227, 299, 365.

P.

Parasitic gastritis and cattle, 243.
Pasture, establishment and maintenance of cocksfoot in, 257.
Pasture, improvement of poor: Investigation at Wallaceville Laboratory Farm, 15.
Peach-stones, splitting of, on tree, 188.
Pennyroyal, control of, 57.
Pests and blights, directions for dealing with, in home orchard, 40.
Pests and diseases of the orchard, directions for the control of, 182.
Phosphates, economizing, 79.
Pig-foods, 161.
Pig-shortage, the: Inquiry and advice for farmers, 294.
Pig with skin trouble, 310.
Pigs, effect of mustard and salt on, 244.
Pigs, feeding lucerne hay to, 312.
Pigs on fern land, 378.
Pigs, worms in, 243.
Piripiri, control of, 55.
Pittosporum hedge, treatment for, 186.
Plant-identification, 14.
Plantations, areas in orchards, gardens, and, 128.
Plantations of exotic trees, diseases in, 63.
Plants, propagation of: Methods in regard to cuttings, 93.
Plum-trees, tests with unfruitful, 162.
Pollard-poison and sheep, 117.
Potato growing and handling, notes on, 157.
Potatoes, lime-sulphur for spraying, 55.
Potatoes, selection of seed, 37.
Potatoes, storage of, 117.
Poultry-keeping (monthly notes), 48, 105, 174, 229, 302, 368.
Propagation of loganberries, 114.
Propagation of plants: Methods in regard to cuttings, 93.
Prunella, lawn infested with, 312.
Pruning of Irish Peach apple-tree, 56.
Puwera gum-land experimental area, 161.

Q.

Quarantine of dogs, 102.
Queen-bees, rearing of, 339.

R.

Rabbit nuisance and the formation of Rabbit Boards, 382.
Rabbit-nuisance legislation, 62.
Rabbits, strychnine-poisoning of, 14.
Rape and cattle, 188.
Raupo, clearing dam of, 189.
Raupo in lake, 378.
Rearing of queen-bees, 339.
Reclamation of sand-dunes, 148.
Red mite and black-spot, control of, 344.
Red mite and woolly aphis, control of, 216.
Red-water in cow, treatment for, 310.
Registrations of dairy factories under Dairy Industry Act, 376.
Rennet casein, market for, 376.
Root-fungus of fruit-trees, 116.
Rotation of crops, 83.
Ruakura, beekeepers' field-day at, 156.
Ruakura, cereal yields at, 364.
Ruakura, high schools camp at, 215.
Ruakura, teachers' farm school at, 100.
Ruakura, the French Mission at, 102.
Rubber-plant, propagating the, 244.
Rural income-tax, 288.
Rust, broad-bean, 379.
Rye-corn for sheep-grazing, 378.
Rye-grass paddocks, stripping of, 310.

S.

Sale and purchase of wheat, 190.
Sand-dunes, reclamation of, 148.
Scholarships, Expeditionary Force, 347.
Science and agriculture, 155.
Science Congress, the, 99.
Scouring trouble in cattle, 118.
Seed-mixture for lawn, 188.
Seed-potatoes: Experiments at Weraroa regarding size, &c., 297.
Seed-testing: The New Zealand official system, 129.
Seeds, storage of, 311.
Seed-wheat and fowl-wheat prices, 191.
Sheep and pollard-poison, 117.
Sheep and the high-country runs, 90.
Sheep, blindness in, 115.
Sheep bot-fly, remedy for, 188.
Sheep-dip fraud, the "Anconia," 225.

Sheep-dipping plant, concrete for small, 212.
Sheep-dipping plant, small, 9.
Sheep-dipping points, 102.
Sheep-grazing, rye-corn for, 378.
Sheep-maggot flies, 10.
Sheep " tick " or ked, 13.
Shelter-belts, requirements for the orchard, 165.
Shelter, providing ground, 241.
Shelter-tree for wet lake-side, 311.
Side-bone in horse, treatment for, 242.
Silver-leaf disease in fruit-trees, 88.
Skin trouble, pig with, 310.
Soil-fertility questions, 57.
Soil-renovation and maintenance of fertility, 142.
Soils, testing of: Notice to farmers, 331.
Soil-treatment, 116.
Soldier settlers, 189.
South Africa and Australia, shipping between, 124.
Splitting of peach-stones on tree, 188.
Spraying-tests at Te Kauwhata for black-spot of pear, 221.
Stable-flies, 12.
Stone-fruits, control of brown-rot of, 272.
Storage of seeds, 311.
Stripping of rye-grass paddocks, 310.
Strychnine-poisoning of rabbits, 14.
Summer forage and winter feed, provision of, 146.
Summer forages, 169.
Sunflower notes, 356.

T.

Table-grape production, the vintage and, 298.
Tasmania, importation of cattle from, 253.
Teachers' farm school at Ruakura, 100.
Tenure of land occupied in New Zealand, 60.
Testing of soils: Notice to farmers, 331.
Tests with unfruitful plum-trees, 162.
Tobacco drying and curing, 377.
Tokanui Mental Hospital Estate, 34.
Top-dressing, application of, to grassland, 379.
" Tree-lucerne " as cattle-feed, 379.
Trees, diseases in plantations of exotic, 63.
Turnip-seed growing, 311.
Tussock-grassland of New Zealand, an economic investigation of the montane, 1, 321.

U.

United States of America, agricultural education in the, 245.
United States of America and Canada, markets for New Zealand apples in, 254.

V.

Veal, exportation of, 384.
Vinegar-making from apples, 218.
Vintage and table-grape production, the, 298.
Viticulture (monthly notes), 51, 109, 233, 305, 371.

W.

Wallaceville Laboratory Farm: Investigation in improvement of poor pasture, 15.
Wattles, management of, 115.
Weather-forecasting in New Zealand, 348.
Weeds, mowing, 217.
Weights and measures: Relation to agricultural products, 208.
Weraroa: Experiments regarding seed-potatoes, 297.
Weraroa milking Shorthorn herd, 364.
Whakarewarewa plantation, 33.
Wheat and oats, average yields of, 247.
Wheat and oat crops, estimated yield of, 128.
Wheat, Government prices for, 256.
Wheat, sale and purchase of, 190.
Wheat yield for 1917–18 season, 122.
Winter feed and summer forage, provision of, 146.
Winter forages, 170.
Wood-borer and its control, the, 198.
Wood-borer in fruit-trees, 58.
Wood-pulp, the Ailanthus tree for, 223.
Wool-purchase by Imperial Government, 123.
Wool situation, the world's, 192.
Woolly aphis and red mite, control of, 216.
Work for the coming month, 45, 103, 172, 227, 299, 365.
World supply of cereals, 248.
Worms and bots in horses, 377.
Worms in pigs, 243.

ILLUSTRATIONS.

Page.

Some noteworthy flies affecting live-stock—
- Horse bot-fly and larva .. 11
- Sheep nasal bot-fly and larva .. 11
- Yellow blow-fly; European bluebottle; New Zealand bluebottle .. 11
- Common stable-fly .. 12
- Common house-fly .. 12
- Head of stable-fly .. 13
- Head of house-fly .. 13
- Sheep-ked and larva .. 14

Improvement of poor pasture: Investigation at Wallaceville Laboratory Farm—
- View of paddocks Nos. 2 and 3 .. 19
- View of paddock No. 3 .. 19
- Another view of paddock No. 3 .. 23
- View of paddock No. 4 .. 23

Scene on the Tokanui Mental Hospital Estate, King-country .. 35

Revised compatibility chart of insecticides and fungicides .. 39

Testing of purebred dairy cows: The certificate-of-record system in 1918—
- Lady Peggy .. 68
- Pretty Polly .. 68
- Princess Pietertje de Kol .. 71
- Mutual Pearl of Rock .. 71
- Fancy's Lord Twylish .. 76
- Prince Pietje Paxton .. 76

Economizing phosphates: A contrast due to the use of limestone .. 81

Ruakura homestead (rear view) .. 101

Seed-testing: The New Zealand official system—
- Specimen record-cards .. 130
- Preparing a germinating-tray .. 131
- Counting out the seeds for germination .. 132
- Placing seeds to germinate .. 132
- Germinator: Interior view .. 133
- Counting out the seeds that have germinated .. 133
- Weighing out quantity for purity-analysis .. 134
- Searching for impurities .. 134
- Picking out impurities .. 135
- One of the germinators .. 136
- Specimen report forms .. 138

Reclamation of sand-dunes—
- A newly made marram plantation on the New Zealand coast .. 149
- Dunes in Holland planted with marram-grass .. 151
- Dunes planted with mixed pines, at Schoorl, Holland .. 153

Tests with unfruitful plum-trees: In Mr. Sibeth's plum-orchard, Clive Grange 164

Curative treatment of bush sickness by iron salts—
- Four two-year-old beasts raised at Mamaku Farm .. 195
- Calves at Mamaku Farm successfully raised to age of nine months .. 196

The wood-borer and its control: *Anobium domesticum* .. 198

Lucerne experience: Lucerne at Somes Island .. 214

Vinegar-making from apples—
- Section of barrel arranged for "slow" process of vinegar-fermentation .. 218
- Flannel filter .. 219

Somes Island, Wellington Harbour .. 226

Teachers' Farm School at Ruakura—
- Group of teachers and staff at the homestead .. 240
- Veterinary demonstration by Mr. T. W. Collins, M.R.C.V.S. .. 240
- In the horticultural section, after a lecture .. 240

Cocksfoot : Its establishment and maintenance in pasture—
Page.
Cocksfoot grassland, eight years old, showing a compact sole held together with poa pratensis 259
Weedy succession on similar land where cocksfoot was not used .. 259
Cocksfoot on hillside 261
Tussock-danthonia grassland where cocksfoot has been virtually eaten out 263
Background of previous figure. Spelled ground beyond fence, showing abundant growth of cocksfoot between tussocks 263
Plots at Weraroa showing superior cocksfoot-growth when combined with clover 265
Close view of cocksfoot-clover plot shown in previous figure 265
Junction of two plots at Weraroa, showing the depressing effect of Italian rye-grass on cocksfoot-establishment 267
Two-year-old cocksfoot on poor stony ground at Weraroa, which has not yet flowered 267
Part of two-year cocksfoot field on poor stony ground at Weraroa, showing vigorous growth on patches manured by cattle-droppings .. 269
Two-year cocksfoot-plants in same field in full seed on cattle-manured patches 269
Cocksfoot seedlings (natural size) in pure sowing 271
Ensilage in Southland : Making ensilage at the Gore experimental area .. 286
An economic investigation of the montane tussock-grassland of New Zealand—
The Hanmer palatability experiment : Rams turned out on Conical Hill 325
Section of pasture on Conical Hill 325
Summit of Conical Hill under snow 326
Rearing of queen-bees—
Comb prepared for the Stewart method 341
Apparatus for the Doolittle method 342
Control of red mite and black-spot on apple-trees : Some stages of bud-development 345
Weather-forecasting in New Zealand—
Weather chart, 13th August, 1912. Typical anticyclone, or "high" .. 353
Weather chart, 2nd October, 1915. Anticyclone in north ; low pressure southwards 355
Weather chart, 23rd June, 1913. Extensive anticyclone centred south of New Zealand ; relatively low pressure northwards 355
